

BEFORE ENTERING THE LAUNDRY ROOM

Please know that the well-being of our team members, guests, and residents is our number one priority. In light of the recent CDC recommendations and government orders, we are taking precautions to optimize safety for everyone.

PRACTICE SOCIAL DISTANCING

Wash your hands, don't touch your face and stay 6 feet apart.

WIPE IT DOWN

If you have the ability, please clean machines and knobs before and after use and wear gloves when handling dirty laundry. Please be sure to wash hands afterward.

BE NEIGHBORLY

Exercise patience. Allow only one person or family inside at a time. If you cannot keep 6 feet apart - please return later.
