

# BEFORE USING OUTDOOR AMENITIES

Please know that the well-being of our team members, guests, and residents is our number one priority. In light of the recent CDC recommendations and government orders, we are taking precautions to optimize safety for everyone.

## PRACTICE SOCIAL DISTANCING

Wash your hands, don't touch your face and stay 6 feet apart. If you feel sick, please stay home and contact your medical professional.

## WIPE IT DOWN

If you have the ability, clean anything you touch before and after use. Otherwise, be sure to wash hands before and after use.

## BE NEIGHBORLY

Exercise patience. If someone else is using this space and you cannot keep 6 feet apart - please return later.

**Thank you for your patience and understanding.  
Please contact your leasing office if you have any questions.**
